If more than one search is submitted, please prioritize searches in order of need.

Please provide a detailed statement of the search topic, and describe as specifically as possible the subject matter to be searched. Include the elected species or structures, keywords, synonyms, acronyms, and registry numbers, and combine with the concept or utility of the invention. Define any terms that may have a special meaning. Give examples or relevant citations, authors, etc, if known. Please attach a copy of the cover sheet, pertinent claims, and abstract.

Title of Invention: Inventorized Workfolder

Inventors (please provide full names): Marcchai M. Keizer Daniel Kehy,
Rand Schellard Christopher R. Linke, et al., Mark A.
Solomon

Earliest Priority Filing Date: 09/28/97

For Sequence Searches Only Please include all pertinent information (parent, child, divisional, or issued patent numbers) along with the appropriate serial number.

The novel features of the invention are: the workfolder or task folder contains a content node for storing primarily Dr. Main data including embedding the document contents (the entire document contents) and the contents node contains one or more placeholders. Within the workfolder or task folder with each placeholder being a slot that is reserved for documents that are expected to be added to the placeholder. The placeholder includes a file object hook for later linking of necessary document data and a trigger element with a triggering condition field (addition, deletion, or modification of workfolder data, including filling of a placeholder; the completion of a task (the assignment of a task or placeholder as well as the expiration of a task or placeholder deadline) and an time period relative to the occurrence of the triggering event).
